

Agency General Ledger

Previously, an Agency General Ledger showed on the Account Event Record Inquiry Screen (S084) only if it was connected to a Comptroller General Ledger which occupied the first position on the Transaction Code (28a) or 84 Screen.

The software has been modified to show the Agency General Ledger on the 84 Screen irrespective of the position of the General Ledger Account. However, the General Ledger Account displayed on the 84 Screen in "GL AC" field is the General Ledger Account one.
